

TC21-HC/TC26-HC Mobile Computer

Affordably priced mobile computers designed specifically for healthcare environments

As ancillary workers account for 40% of the hospital workforce, the TC21-HC/TC26-HC Mobile Computer is perfect for:

Employees at alternate care facilities

Staff in patient transport, food services, facilities or materials management

Environmental health workers responsible for sustaining a sterile environment

A new level of features at a cost-effective price—built for healthcare

Functionality, Durability & Connectivity

Keep workers productive throughout every shift.

Hospitals can confidently deploy mobile devices to ancillary healthcare workers that are affordable, ergonomic and disinfectant ready.

Consistent Backend Device Management

Leverage Android® OS, the world's leading enterprise mobile computing platform.

Wireless Wide Area Network

offers both Wi-Fi and cellular capabilities to expand connectivity beyond the four walls

Video Calling

enabled with a 5 MP front camera

Disinfectant-Ready Housing

withstands 30+ types of disinfectants

Purpose-Built

Gorilla Glass touchscreen receptive to a gloved finger

Connects Teams Quickly & Securely

on a single platform

Around-The-Clock Power

with removable batteries
